ENGINEERING SOCIETY ELECTIONS

Each fall when you pay your fees, you pay two dollars, which is your membership fee to the Engineering Society. You, Mr. Freshman, are wondering, no doubt, just what that is. Your membership has so far been a passive one. But this week you will have an opportunity of actually electing the men who will guide the Society of which you are a member.

For the benefit of every voter in School, Friday's issue of "Toike Oike" will have a list of all the candidates running for office. Take the list and study it. Get all the information about each candidate you can, and then pause and think. Remember the job is just as big as the man in it. If the office is not "filled well" and run as you have a right to expect, you are to blame. You put that man there. Don't vote for a man because he is in your department or because some one else tells you to. Be independent enough to decide for yourself. But first get all the information possible. Then think it out. Use your own initiative. You have it or you would not be in "School." Give the office a half chance, anyway.

To the Freshman:—Everyone in School votes upon the President, the Vice-Presidents, the Treasurer, the two Secretaries, the Curator of the Engineering Society and The President of the Athletic Club. Each year votes on its President, Vice-President, Secretary and Treasurer. Each Department votes a Chairman for its Club.

Nominations will be held Wednesday at 4 p.m. in the first year drafting room. This is your chance to look over each candidate.

T. M. S. K.—"I am trying to grow a moustache, and I am wondering what color it will be when it comes out."

Miss Hamilton—"At the rate it is growing, I should think it will be grey."

Ye Crier—"Oyez! Oyez!! Oyez!!! He who hath ears prepare to ope' them now. Know ye that on Friday eve, in ye hall of Convocation, in this year of our Lord, will be held ye Election Festival. NOTICE!

It is requested that the students of "school" will refrain from opening any sort of hostilities with the medical students. At the present time, with the searchlight of the Government Committee being turned on the University any such event would prove detrimental to the best interests of Varsity.

ATTENTION! THIS MEANS YOU!

You are a Schoolman. Do you know how your elections are carried on? Read this extract from the By-laws on the election of officers.

1. The President, assisted by the Recording Secretary and the Treasurer, shall conduct the poll and shall appoint scrutineers to count the ballots.

2. The names of the candidates for offices shall be printed on the ballot papers, as many offices as possible on the same ballot.

3. Each member entitled to vote shall receive his ballot from the Returning Officer, and, after marking it, shall return it to the returning officer, who shall deposit it in the ballot box.

N.B.—VERY IMPORTANT! !

4. A majority of the total number of votes cast shall be necessary for election to any office. The Hare-Spence system of voting shall be used. In the Hare-Spence system of counting, the voter marks opposite the name of the candidate for whom he wishes to vote, the figure 1; while opposite his second choice for this office he marks the figure 2; and opposite his third choice the figure 3; and so on.

When the number of "first choices" are added the candidate with the lowest number goes out, and his "second choices" are distributed among the others, counting as "firsts." This method of elimination is followed until two are left and the candidate with the largest count is declared elected.

N.B.—No. 4 simply means that when you get your ballot you will mark a 1 opposite the name of the man you are voting for. Then you will pick out a second choice and put a 2 opposite his name. Then a third choice and put a 3 opposite his name and so on.

2T3

The excitement of elections is on us once again. This time it is our lot to pick out the men who are going to be permanently in charge of our interests as a year. They will be responsible for all our activities and remember there is a re-union every year. There is to be elected a President, Vice-President, Secretary-Treas.

Dame rumour hath it, that several good men will be nominated for each office, and it is our duty to be impartial and see that we use our judgment to the best of our ability. We have got to know each other in four years and it should be much easier to pick the man for the job than the job for the man.

R. G. K. MORRISON,
President 2 T 3.
